FOR IMMEDIATE RELEASE

Executive Management Services Maintains Top Industry Certifications

Indianapolis, Indiana - Executive Management Services, Inc. ("EMS") has been awarded full recertification by the Cleaning Industry Management Standard ("CIMS"), obtaining both CIMS and CIMS-Green Building status, nationwide. EMS was not only awarded these certifications, but was also given full "Honor" status in both categories, recognizing EMS as an industry leader. This marks the second renewal of these certifications since EMS was initially certified in 2011.

CIMS Certification demonstrates that EMS is structured to deliver consistent, quality service and is committed to efficient operations and continuous improvement. CIMS applies to an organization in its entirety, rather than to a specific individual, process or product. Executive Management Services, Inc. is CIMS Certified with Honors nationwide.

CIMS-GB Certification with Honors demonstrates that EMS has undergone a comprehensive assessment by an independent, accredited CIMS-GB assessor and has successfully exhibited a commitment to the delivery of environmentally preferable services, designed to meet customer needs and expectations. By implementing the CIMS-GB principles into day to day operations, EMS has established the capability to provide green cleaning services and assist customers in achieving points under the LEED-Existing Buildings: Operations and Maintenance (LEED-EBOM) Green Building Rating System.

For more on EMS and how these certifications benefit our customers, employees and the cleaning industry, visit our website at www.emsinc.com.

About Executive Management Services:

For nearly thirty years, Executive Management Services, Inc. has proudly been committed to finding better cleaning solutions for companies across the country.

EMS firmly believes the quality of our service is dependent on the people we employ. EMS approaches each site's unique needs with care, going above and beyond to develop appropriate site specifications and acknowledging realistic productivity standards. This attention to detail, combined with a foundation of professional management, commitment to our employees and strong customer relationships, makes EMS unique and progressive in the industry.
